Marirose, you are correct, that unfortunately is a typo. Riverside and Confab is SE of the facility. The approximate distance on 04/25 should read SE.

Subject: New Indy Report, clarification question

Hi Marta,

I was creating a summary table to possibly include in the order and notice that the approximate distance from the facility is different for the Riverside Rd and Confab Ln stationary readings taken on April 25, and 26. There was also a reading taken on April 24th, not included in the table below, that says the distance is 0.67 mi SE HP. Is it possible that the "NE" associated with the reading on the 25th is a typo?

Just want to make sure in case we end up citing to any of these values in the order.

| Date | Location | Approximate Distance from facility | Maximum 1-second H2S in ppb |
|-----------|--|------------------------------------|-----------------------------|
| 4/26/2021 | Riverside Rd and Confab Ln | 0.64 miles SE | 943.74 |
| 4/27/2021 | Highway 5 (Cureton Ferry Rd) and Catawba River | 0.4 miles N | 501.82 |
| 4/24/2021 | Highway 5 (Cureton Ferry Rd) and Catawba River | 0.4 miles N | 473.37 |
| 4/25/2021 | Riverside Rd and Confab Ln | 0.63 miles NE | 387.41 |
| 4/26/2021 | Riverchase Estates Entrance | 1.5 miles SE | 219.20 |
| 4/27/2021 | Catawba Reservation, Iswa Headstart School | 3.56 miles N | 140.56 |

Please let me know when you get a chance.

Thanks!
Marirose
